PREMIER i2® TRAINING EXPERTS

Blue Light's team of dedicated data analysis experts provides industry-recognized training that utilizes proven strategies and techniques to help you harness the true power and potential of your i2 solution.

BLUE LIGHT TRAINING

IBM i2

IBM Silver Business Partner

Web-based, self-paced training classes: 3 days, intro to Analyst's Notebook
- No software or infrastructure required, delivered via Digital Chalk & Amazon Web Services (AWS) so you only need a browser.
- Various other products in the i2 suite are also provided, such as ibase, EIA, charting, etc.

Web-based, instructor-led training classes: 3–5 days, Analyst's Notebook, Basic and Advanced, this training follows the 8-5 normal training agenda, student can attend the training via web to save traveling to the training facility.

In-Person, Instructor-led training classes: This is the traditional 3–5 day classroom training for up to 10 students, everything provided. These trainings are conducted at your location or at strategic locations regionally around the country to minimize travel time and costs. The Basic Course can be extended to 5 days and includes Advanced Material.

BLUE LIGHT CONSULTING

- **Implementation Support:** configuration, set-up and test of the new i2® Analyst Notebook install; Available T & M or on a fixed fee.
- **Data Integration Support:** Connecting data sources is the single biggest use of the analyst time, with Blue Light Consultant, connections are easily established.
- **3rd Party Integrations:** Blue Light partners with all the key players in the i2® space and quickly arrange for connection to important data sources through special connectors, plug-ins or subscriptions – i.e., Lexus Nexus, Point Duty social media plug-in and many more.
- **Senior Support for EIA implementations:** The most complex large-scale environments are within Blue Light scope and skills.
